

TEACHING·LEARNING·LIVING

Teaching and learning facilities for all areas of life

Due to our high quality standards, our innovative and customer-oriented development, our professional competence and our reliability, our company, Mayr Schulmöbel, which was founded by Dir. Johann Mayr in 1968, has become the leading Austrian manufacturer for school equipment.

With his innovative and new concept for school furniture, according to which furniture and equipment ought to adapt to the needs of students, rather than the other way round, the founder of our company already drew general attention and recognition all around the country in the company's early days. Ever since then we from Mayr Schulmöbel have been designing and constructing our products with this idea in mind. This idea as well as a number of

groundbreaking patents have led to a general increase in the standards of school furniture.

With this brochure we would like to introduce our company and give you an overview of our products and solutions for schools as well as offices. When planing new projects and designing rooms for our customers we are always making reference to the respective learning and teaching goals and are anxious to include them into our room concepts.

Our experienced and competent project managers will accompany and guide you throughout the project, from the planing process until completion.

With more than 5000 products already available we are sure to find the right and ideal solution for your needs and will be happy to serve you.

Outdoor Furniture

Our array of products comprises all the furniture and equipment a school may need. Adjacent to students desks and chairs, we also provide solutions for labs for Physics, Chemistry, IT, kitchen, Handicrafts and Arts. Furthermore we provide high quality solutions for libraries, school offices as well as outdoor settings.

Our range of products comprises about 5000 state of the art products which have all been proved and tested for high quality as well as durability.

CLASSROOMS

Student Desks and Chairs

THE FUTURE OF OUR HEALTH IS PREVENTION AND STARTS IN CHILDHOOD

Ergonomically shaped school furniture shall help to spare the spinal disks and strengthen back muscles. Thus it has always been our ambition to develop school furniture which

adapt to the proportions of a student and offer as much space for movement for a change of sitting posture as possible.

ALL-DAY SCHOOLS

More Flexibility in Classrooms

THE FLEXIBLE RANGE OF SPACE UTILIZATION

School is getting more and more children's central living space. This requires new furniture which are tailor made for a whole-day stay at schools. Our flexible furniture can be rearranged quickly if required for frontal teaching, group work or homework assistance and individual instruction in the afternoon.

INFORMATION TECHNOLOGY

Concepts for IT Labs

ERGONOMIC AND FUNCTIONAL

Screen workplaces by Mayr Schulmöbel ensure an optimal ergonomics for students and teachers in the IT class.

Screen desks can be finished with skid or four-base-framework and offer optimal leg space. In the tower corpus the computer is protected, however easy to handle. Electricity and data

lines are housed in special canals and in a way that they are easily accessible. Material, functional elements and design are harmoniously matched. Swivel chairs with sitting height adjustment are an ergonomic requirement for the screen workplace.

MULTI MEDIA EQUIPMENT

Interactive Teaching

MODERN INTERACTIVE TEACHING

With the robust boards that are adjusted to the requirements of schools and their interactive classes and the wide range of furniture for the media domain media rooms can be optimally equipped.

Whether interactive whiteboard, media furniture for school or multifunctional media tables - it has never been so easy to offer modern and multimedia lessons in all their facets.

NATURAL SCIENCES

Physics, Chemistry and Biology

MEDIA PROVISION FROM THE FLOOR OR THE CEILING

Beside the proven media provision firmly mounted on the floor we also provide media equipment from the ceiling for a variable room use for chemistry, physics and biology classes.

The equipment for your school's chemistry room covers workplaces for students and teaching staff from a single source. Our laboratory equipment meets all safety standards and invites to exciting teaching and learning with an interactive character. Click through our facilities for the natural science room for more information.

TEACHING KITCHEN

Domestic Economy Education

LARGE WORKING SURFACE – OPTIMAL ARRANGEMENT

Adapted to the needs of home economics classes we have developed and selected appropriate and functional furniture with regard to the latest ergonomic know-how. Large working surfaces, ergonomic working heights, easy accessibility and optimal positioning of the cupboards are

key-elements of planning and designing a teaching kitchen. Our teaching kitchen facility relies on comprehensive solutions and numerous modules to ideally equip every school kitchen. In this teaching environment, home economics classes are twice as fun.

STORAGE

Cupboards for Schools

ORDER AND EFFECTIVENESS IN THE DAILY SCHOOL ROUTINE

Long-living for the school routine designed furniture contribute to an orderly and effective school operation from the classrooms to the administration area. With the right school cupboard and the suitable accessories structure enters. Discover the school furniture cupboards, school furniture shelves and even more selection by clicking on the category of your choice.

LIBRARIES

Wood & Steel

FUNCTIONAL AND MODERN

No matter whether you choose a classical steel shelf or rather a shelf combination of carefully selected beech wood, we have got the best solution for any taste. In addition, a combination of both materials is possible. Thus, the cosy warmth of wooden shelf bottoms is completed with the modern accents of a steel shelf. This creates an inviting friendly atmosphere in the library.

OFFICE & Administration

SYSTEM FURNITURE FOR MODERN OFFICE WORKPLACES.

Clear, simple and functional:
The modular design of the desks and system furniture offers a variety of combination options for creating the ideal workplace. Whether as office furniture for the school, accompanying office equipment for the school or typical workplace equipment, the attractive range from desks to cupboards and seats combines functionality with ergonomic design.

WARDROBE

just create order

MUCH SPACE FOR JACKETS AND SHOES

For the equipment of wardrobes in the student, teacher resp. administrative area a comprehensive range is at your disposal. With the right wardrobe for your school you set an example. Depending on space, type of school and age open wardrobes for schools, cupboards and lockers are at your choice, as well as the classical school wardrobe with seats.

CHAIRS

Object & Office

THE RIGHT OFFICE CHAIR FOR EVERY APPLICATION.

Modern office chairs can be adjusted to the ergonomic needs of the user with their individual adjustment of seat height, lumbar support, synchronous mechanism and armrest height.

STACKABLE MULTIPURPOSE CHAIRS FOR VARIABLE USE

- ... for seminars and training courses
- ... for meetings and conferences
- ... for visitor and waiting areas
- ... for open-plan and row seating
- ... for dining rooms
- ... for cafeteria etc.

HANDICRAFTS & Arts

FUNCTIONAL FURNITURE FOR CRAFTS AND ART EDUCATION

For the different needs of both subjects, Mayr school furniture has developed workbenches, supplementary equipment and functional accessories that are suitable for schools.

Numerous design variants and equipment options enable individual room design and optimal use of space, from the workbench for the school to supplementary equipment for art education.
